🔐 COMMISSIONER ADMIN GUIDE

Long Beach Diamond Classics — Full Admin Access

🔒 **Commissioner / Adam Only — Do Not Share**

🌐 **long-beach-men-s-baseball.vercel.app → Admin**

This guide covers the **full Admin login** — which gives you access to everything on the site. As commissioner, you have powers that team captains do not: you can post emergency alerts, enter box scores for any team, edit or delete any game, manage the full schedule, and send the weekly email.

Keep this password private. Team captains use their own team login — they should never need the admin password.

ADMIN PASSWORD

lbdc2026

🔑

Go to Admin tab → type this in the "Admin Password" box → click LOG IN AS ADMIN

📋 THE ADMIN DASHBOARD

What you see after logging in

Once you log in as Admin, you'll see two things on the page:

LBDC ADMIN — Logged in as League Admin Log out

🚨 **LEAGUE ALERT BANNER**

e.g. ⚠️ RAINOUT — All Saturday April 19 games are CANCELLED due to rain. Makeup dates TBD.

POST ALERT TO SITE

QUICK ACTIONS

📊 **Enter Box Score**
Enter this week's results

📁 **Manage Games**
Edit or delete saved games

📧 **Send Weekly Email**
Copy results to clipboard

📅 **Manage Schedule**
View season schedule

🚨 LEAGUE ALERT BANNER

Post emergency notices to the entire site instantly

❓ What does it do?

When you post an alert, a **big red popup** appears on the website for every person who opens it. They have to click OK to close it before they can use the site. It's impossible to miss — perfect for urgent news like rainouts.

✍️ How to post an alert

1. Type your message in the big text box
2. Click the red **"POST ALERT TO SITE"** button
3. Done — it goes live on the site immediately for everyone

🗑️ How to remove an alert

Clear the text box completely (delete everything you typed) and click "POST ALERT TO SITE" again with nothing in the box. The alert disappears from the site.

💡 **When to use this:**

Rainouts · Game cancellations · Field changes · Time changes · Any urgent league-wide notice that everyone needs to see the moment they open the site

✅ **Example messages:**

"⚠️ RAINOUT — All Saturday April 19 games are CANCELLED due to rain. Makeup dates TBD."

"📍 FIELD CHANGE — April 26 games moved to Blair Field. Same times."

📊 ENTER BOX SCORE

Enter results for any team — you see all games, not just one team

🔑 **Admin vs. Captain — the key difference**

When a captain logs in, they only see their own team's games. When **you log in as admin**, you see every game for every team in the season — all games from all matchups.

📋 **Three tabs at the top**

· **FROM SCHEDULE** — pick any game from this season and enter its box score
· **EDIT SAVED GAME** — find a game already submitted and fix a mistake
· **CUSTOM GAME** — enter a game that wasn't on the schedule (tournaments, makeups, etc.)

📌 **The box score form is the same for admin as it is for captains**

— scores, linescore, batting lineups, pitching, recap. The only difference is you have access to all teams. See the Manager Guide for detailed instructions on filling out the form.

📁 MANAGE GAMES

Edit or delete any game that has already been submitted

🔍 **What you'll see**

A list of every submitted game — team names, date, and final score. Each game has an **Edit** button and a **Delete** button.

Editing a game

✏️ Click **Edit** next to any game. The full box score form opens pre-filled with all the existing data. Change whatever needs fixing, scroll down, and click **"Update Box Score."** Changes are live instantly.

🗑️ **Deleting a game**

Click **Delete** next to a game to permanently remove it from the database. **This also deletes all batting and pitching stats tied to that game.** Only delete if the game was entered by mistake or is a duplicate.

> ⚠️ **Deleting is permanent.**
>
> There is no undo. All stats for that game are erased from player records and leaderboards. If you just need to fix a score or stat, use Edit — not Delete.

📧 SEND WEEKLY EMAIL

Copy this week's results to paste into your email to the league

❓ **What does it do?**

This tool generates a **formatted summary of the most recent week's scores and results** — ready to copy and paste into an email. It pulls the latest game results automatically.

📋 **How to use it**

1. Click **"Send Weekly Email"** from the dashboard
2. The results summary appears on screen
3. Click the **copy button** to copy it all to your clipboard
4. Open your email, paste it in, and send to the league

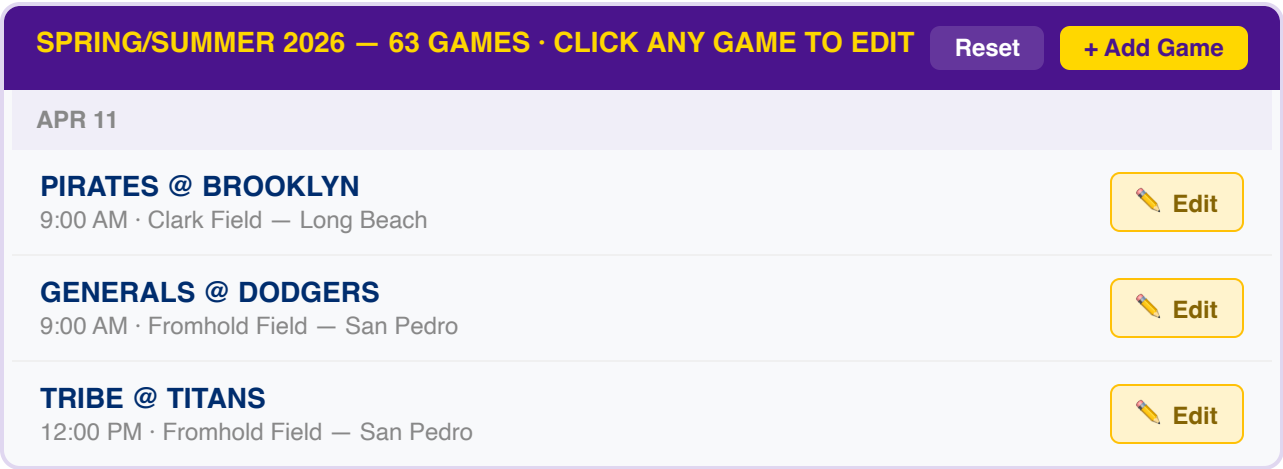
> 💡 **Note:**
>
> This only works once box scores have been entered for that week. If you click it before any games are entered, it will say "No games recorded yet."

📅 MANAGE SCHEDULE

View, edit, add, or remove games from the season schedule

What you'll see

The full season schedule listed by date — every game, time, and field location. The header shows how many total games are in the season (e.g., "Spring/Summer 2026 — 63 Games").



Edit a game

Click the **"✏️ Edit"** button next to any game to change its date, time, field location, or teams. This updates the public schedule and the team calendars. Use this when a game gets rescheduled or moved to a different field.

Add a game

Click the blue **"+ Add Game"** button in the top right to add a new game to the schedule — useful for makeup games or games that were added mid-season.

Reset button

The **"Reset"** button is for wiping the entire schedule and starting fresh. **Do not click this unless you intend to completely rebuild the schedule.** It cannot be undone.

> ⚠️ **Do NOT click Reset**
>
> unless you are 100% sure you want to erase the entire season schedule. This is a nuclear option — use Edit or Add Game instead.

⚖️ ADMIN VS. CAPTAIN — QUICK COMPARISON

What each login can and can't do

Feature	Captain Login	Admin Login (You)
Enter box score for own team	✅ Yes	✅ Yes
Enter box score for any team	—	✅ Yes
Edit a submitted game	✅ Own games	✅ Any game
Delete a game	—	✅ Yes
Post league alert banner	—	✅ Yes
Send weekly email	—	✅ Yes
Manage / edit schedule	—	✅ Yes
Add games to schedule	—	✅ Yes
